SUBJECT : Informal Comments on IG Report from OSA and ORD

OSA

25X1A

[REDACTED] said that OSA had no comments to make on the report but would want to call Carl Duckett's attention to the fact that the U-2 came out quite well.

ORD

There may be additional comments contributed at the Staff Meeting, but ORD had this preliminary remark: Concur with thrust of report regarding need to tighten up on Intelligence Collection but; at the same time, greater emphasis should be given to improvement in the processing of intelligence collected.
